

KEY INDICATORS

With 9,556 hectares, Luxembourg had 7.2% of its farmland under organic management, which was below the EU average of 11.1%. Organic farmland more than quadrupled, similarly to the European Union. In Luxembourg, organic retail sales amounted to 180.3 million euros or 9% of all retail sales, considerably higher than the EU organic share.

CAP ORGANIC POLICY SUPPORT

The Luxembourg CAP Strategic Plan provides for a more than five-fold increase in the share of agricultural area under organic farming and expenditure on organic support by 2027 compared with 2018, with a funded target of 24% organic by 2027. Support payments per ha for fruit and vegetables are doubled compared with the previous period, with smaller increases for grapes, arable and grassland. Support for conversion is also increased to levels up to 75% higher than maintenance support, reaching 2500€/ha for permanent crops.

CONVERSION & MAINTENANCE

	2018	2027
Land Area Supported (Change from 2018)*	5 kha	24 kha (+394%)
Share of Total Agricultural Area Supported*	3.8%	19.8% (+421%)
Share of Certified Organic Area Supported (Change)*	85%	N/D
Expenditure per Year*	1 M€	8 M€ (+556%)
Expenditure per Hectare Supported*	258 €	342 € (+33%)

SHARE OF CAP RESOURCES

CAP EXP. 2023-2027 ORGANIC SHARE*

Organic Farming Support (P2)*	35 M€	100%
Eco-Schemes (P1)	41 M€	20.7%
Agri-Environment, Climate, Welfare (P2)	129 M€	
Total CAP Expenditure	465 M€	7.6%

*including in-conversion and fully organic land

	2023		+33%	+50%	+74%	+67%	+67%

P1 (Pillar 1) European Agricultural Guarantee Fund (EAGF); P2 (Pillar 2) European Agricultural Fund for Rural Development (EAFRD) and national co-financing

*Potatoes 700 €/ha conversion, 550 €/ha maintenance

NATIONAL ORGANIC ACTION PLAN

Luxembourg published its fifth national organic action plan at the end of 2025,, with the first one started in 2009. Despite the ambitious growth targets and the high levels of support available (see above), many actions in the previous plan were mainly focused on early-stage scoping of information initiatives. The targets and actions of the new plan are less ambitious than the previous one, although some actions to improve action plan governance are proposed: strengthen role of ComEx, establish reporting system with indicators, involve stakeholders through consultations

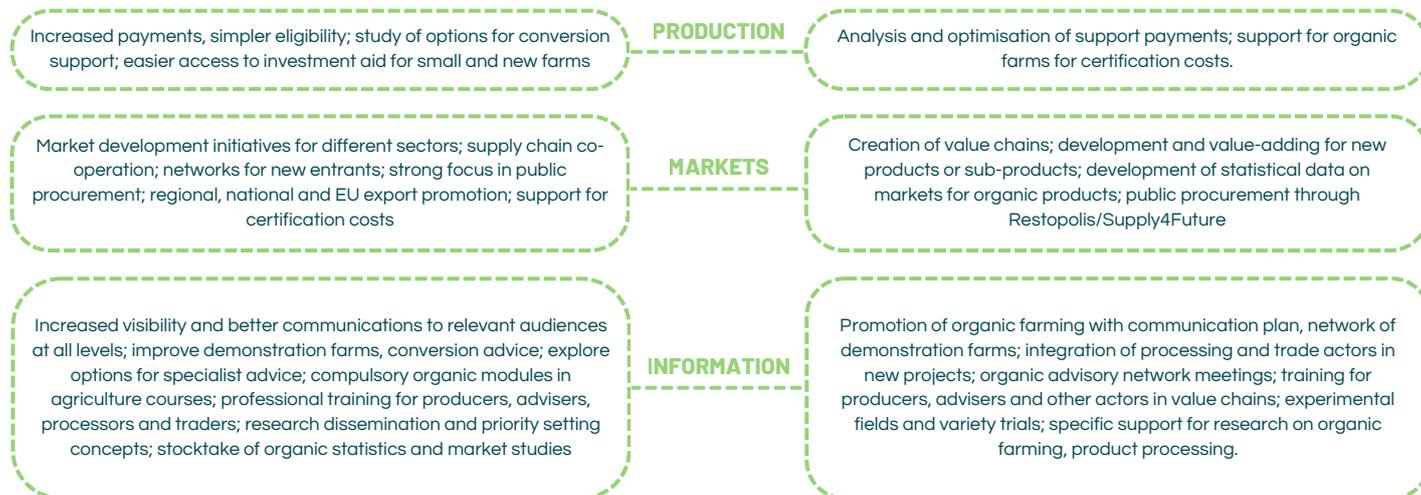

TARGETS

	PERIOD	LAND AREA TARGET	OTHER TARGETS
Previous Action Plan	2019-25	20% of UAA by 2025	20% public procurement by 2025
Current Action Plan	2026-30	Increase by 1 percentage point per year to 15% by 2030	30% share of public procurement by 2030

KEY ACTIONS

PREVIOUS ACTION PLAN (2019 - 2025)

CURRENT ACTION PLAN (2026 - 2030)

AQUACULTURE

The organic share of total aquaculture production in Luxembourg is negligible. Luxembourg was not included in our analysis of the EMFF (2014-2020) and EMFAF (2021-2027) operational programmes and the Multi-annual National Strategic Plan for Aquaculture. Organic aquaculture was not highlighted in the current or previous national organic action plans. As the funding is project specific and there is no ring-fenced organic budget, statistics on organic aquaculture support expenditure are not available.
